Outcome aligned, collaboration conscious Web Developer, resolute in the practice and pursuit of quality software engineering, with an ambition to clarify and actualize product development goals with each iteration. Professionally versed in multiple languages and frameworks. Perennially endeavoring to adopt new frameworks and technologies, augment coding expertise, extend ecosystem literacy, and cultivate language agnostic programming proficiency.

TECHNOLOGIES

- Languages: HTML5, CSS3, Python, JavaScript, Node.js, ColdFusion, PostgreSQL, SQL Server
- Frameworks: Vue, Django, React, Angular, Bootstrap, Express.js, GraphQL
- Additional: AWS, Command Line, Version Control (Git, SVN), Agile/Scrum

SOFT SKILLS

- Comfortable discussing technical subjects with stakeholders to clarify needs and help focus development objectives.
- Dextrous written communicator.
- Exceptional code of practice.
- Task oriented and highly driven to complete goals.

EDUCATION

- University of Arizona Coding Bootcamp (Tucson, AZ) — 10/2017 to 4/2018
- Prescott College (Prescott, AZ) — Graduated 12/2006
    - *B.A. in Liberal Arts. Dual Competence: Environmental Studies, Arts & Letters*

PROFESSIONAL EXPERIENCE

University of Arizona — *Full Stack Developer* — Started 2/2020, Current
- One of 2 Devs for a suite around 10 applications within the financial services department.
- Attained aptitude in main tech stack (python, Django, VueJS), in a matter of weeks.
- Complete goals in two week sprints and overseen by stakeholders following Agile software development methodology, Atlassian Jira included.
- Successfully transitioned about half of application suite to a serverless model.

Simpleview — *CRM Developer* — Mar, 2018 to 2/2020
- Administered individualized support to hundreds of clients internationally for Simpleview's DMO centered CRM products, developed in ColdFusion, Angular, and JavaScript.
- Provided support in extending access to client data through an API, often involving discourse with third party developers working in a diversity of languages and frameworks.
- Regularly scripted and executed SQL scripts on live data sets involving often many thousands of rows of critical data.

ADDITIONAL WORK EXPERIENCE

Sky Bar - (Tucson, AZ) Manager, Booking Agent, Sound Tech, Bartender - 11/2014 to 11/2017
- Revitalized marketing, menu design, inventory sourcing and management bringing profits up for all areas of responsibility by 60-80%.
- As a Booking Agent, sustained an event calendar with live touring and local bands twice a week, regular event, and other special events for over two years.

Prescott College, PR & Marketing (Tucson, AZ) — 2009
- Composed 12-15 stories based on interviews of students and alumni across the college's programs over the course of a year for Prescott College publications.

The Compass School (Westminster, VT) — 2008 to 2009
- Instructed Trigonometry, Algebra and Rock Band to small classes of 8 to 15 high schoolers.
